CISA®

CISA® Certification Training

Table of **Contents:**

Program **Overview:**

Simplilearn's CISA® course is aligned with the latest 2019 edition of the CISA exam and ensures that you ace the exam on your first attempt. Most jobs in this field either require or prefer that candidates have a CISA (Certified Information Systems Auditor) certification. The CISA training course will enhance your understanding of IS audit processes and also help you understand how to protect information systems.

Program **Features:**

> 69 hours of blended learning

> 29 hours of Online self-paced learning

> 40 hours of instructor-led training

> Five simulation exams

> 10 industry-based case studies

> Five domain-wise test papers

> Exam pass guarantee (except for Africa and the Indian subcontinent)

> Exam voucher included (except for Africa and the Indian subcontinent)

Delivery **Mode:**

Blended - Online self-paced learning and live virtual classroom

simpl**i**learn

Prerequisites:

To get your CISA certification, you need to:

> Submit the completed application within five years from the date of initially passing the examination

> Get all the experience you've listed verified by your employers. The experience should have been gained within the 10-year period preceding the date of application or within five years of passing the examination

Target **Audience:**

> IS/IT auditors/consultants
> IT compliance managers
> Chief compliance officers
> Chief risk and privacy officers
> Security heads/directors
> Security managers/architects

Key Learning **Outcomes:**

Upon completion of this CISA course, you will:

> Be able to identify and assess vulnerabilities and report on compliance and institutional controls

> Gain a better understanding of IS audit and assurance guidelines, standards, and best practices

> Learn how to govern and control enterprise IT environments

> Understand the acquisition, development, testing, and implementation of information systems

> Develop a working knowledge of the five domains of CISA, as prescribed by ISACA

> Acquire the relevant knowledge and skills required to pass the CISA certification exam by ISACA

Certification Details and **Criteria:**

To become a CISA certified professional, you must meet the following requirements:

> Pass the CISA examination

> Submit an application for CISA certification

> Adhere to the code of professional ethics

> Adherence to the continuing professional education program

> Compliance with the Information Systems Auditing Standards

Simplilearn Course **Completion Criteria-**

Online Classroom:

> Attend one complete batch
> Complete one simulation test with a minimum score of 60 percent

Online Self-Learning:

> Complete 85 percent of the course
> Complete one simulation test with a minimum score of 60 percent

Course **Curriculum:**

> Domain 00 - Course Introduction
> Domain 01 - Process of Auditing Information Systems
> Domain 02 - Governance and Management of IT
> Domain 03 - Information Systems Acquisition, Development, and Implementation
> Domain 04 - Information Systems Operations, Maintenance, and Support

Customer **Reviews:**

Kalavathi R Srivatsa
Senior Manager Compliance at Hubzu

I attended this course with an expectation of understanding the basics and complete information about the CISA exam and certification. The training was delivered with a high level of professionalism, the trainer explained complex logic easily. Overall this training was great and met my expectations.

Navin Malhotra
Audit Manager

The training course provided gives a very good understanding of the five domains of CISA certification. It is going to prove very handy and good reading material for self-study for exam preparation.

Rohit Rajvanshi
Head - IT & CISO

Classroom training helped me to understand the key concepts and interactions with a highly qualified trainer too was greatly helpful.

Deepak Rana
Software Developer Lead at TSYS

Thorough and detailed discussion during the batch helped to understand the concepts better.
